Summary

I am a young professional who have an outstanding performance on my previous and current position like building huge complex network to an easy to work with environment for different international banks as a junior and mid-level network and system engineer. And as a software developer I have played a great roll creating and implementing different software solution for office management purpose and now I am working as React front-end developer on E-wallet mobile application.

Experience

1. **Walia Technologies Oct 2018 – Mar 2020**

   Junior Network and System Engineer

   Addis Ababa, Ethiopia |Oct 30, 2018 - June 20, 2019

   - I maintained and administered computing environments.
   - I managed software, applications software, hardware and configurations.

   Mid-Level Network and System Engineer

   Addis Ababa, Ethiopia |June 20, 2019 - Mar 8, 2020

   - I maintained and administered computer networks.
   - I performed disaster recovery operations and data backups when required.
   - I designed and developed scalable, maintainable network architectures that meet business objectives and SLAs.

2. **Bazra Motors Feb 2021 -Current**

   Frontend Software Programmer and Graphics Designer

   Addis Ababa, Ethiopia |Feb 8, 2021 – current

   - Build static website for company profile.
   - Graphics Design For the current project.
   - Creating iconic brand for the project.
   - Develop Company Logo.
   - Contribute grate roll on front-end on two huge projects, 1. Fin-tech wallet project 2. GPS tracker project.
   - Still works on both projects.
